General Description

The dry Land in Township No. 24 N. of R. 5 E. of the 2nd principal Meridian is low & somewhat heavy Timbered with W. Oak, Poplar, Sugar, Gum, Hickory, Sycamore, and Beech. The Swamps, Marshes, and wet Land is poor, being of a poor quality of Soil. The water being from one to three feet deep, with a slow current to all points of the Corapap - forming the head waters of Pipe Creek, Deer Creek, and a part of Big Wild Cat. The centre part of the Township forms a Summit, from whence the waters flow. The timber in the Swamps and wet Lands, is Sup. Ash, Sup. Elm. and Maple, the latter of a large growth. Taking it altogether it is a poor Township of Land as there is in the
